(57) Abstract :

ABSTRACT: Title: Phyllanthus Niruri Extract Composition for Jaundice and Its Preparation Method Thereof The present disclosure proposes Phyllanthus niruri extract composition for jaundice and its preparation method thereof. The proposed composition is provided in a powdered and edible form that is to be mixed with either milk or buttermilk for daily intake for jaundice. The Phyllanthus niruri extract decreases the bilirubin level and oxidative stress in phenylhydrazine-induced neonatal jaundice. The composition of Phyllanthus niruri reduces the use of synthetic drugs. The composition of Phyllanthus niruri is a cost-effective composition to cure jaundice with no harmful side effects for normal cells.
